COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

The City of Wichita Falls is an *Entitlement Grantee* for the U.S. Department of Housing and Urban Development's Community Development Block Grant (CDBG) Program, which means the City receives a direct annual appropriation of funds from the Congressional budget process. These funds are used for projects and activities that help develop and maintain a desirable living environment for the citizens of Wichita Falls and are primarily used to benefit low to moderate income areas and persons.

Local non-profit organizations are an important part of the program. Without this involvement, the CDBG Program could not address the broad range of needs in our community in a cost-effective way.

In keeping with the national objectives to develop a viable urban community, the City of Wichita Falls has adopted the following to be the major goals and objectives of the Community Development Block Grant program.

Application for Community Development Block Grant Funding does not guarantee funding. CDBG funding is competitive and based upon a project's eligibility under the regulations and demonstrated need. The Wichita Falls City Council selects recipients and must consider all proposed CDBG projects in light of current community priorities and needs as identified in the Five-Year Consolidated Plan.

GOALS

- To promote the conservation and expansion of the city's housing stock to help ensure the availability of decent, safe and sanitary housing for all residents of Wichita Falls, and especially those residents of low and moderate income.
- To stabilize, preserve and improve established neighborhoods, particularly those identified as low and moderate income neighborhoods.
- To promote expanded economic opportunities which contribute to the improvement of a suitable living environment, especially those residents of low and moderate income.

OBJECTIVES

- To improve the existing housing stock by providing limited repair of owner-occupied homes of eligible low and moderate income residents.
- To provide improved basic urban amenities including paved streets, adequate water and sewer services, parks and improvements to other public facilities within the CDBG-Eligible Target Areas.
- To eliminate neighborhood-degrading slum and blight conditions through services such as code enforcement and demolition of hazardous structures.
- To assist non-profit organizations in the provision of essential support services necessary to promote a suitable living environment for low and moderate income residents of Wichita Falls.

RESPONSIBILITIES OF CDBG SUBRECIPIENTS

The Community Development Block Grant Program is a financial resource that enables the City of Wichita Falls to undertake unique and varied activities. Non-profit agencies and organizations must carry out projects or activities with CDBG assistance that help achieve Community Development goals and objectives and meet basic eligibility criteria under the CDBG regulations.

The final responsibility for the Community Development Block Grant Program rests with the Wichita Falls City Council. The City has a duty to protect the investment of public money. To ensure approved activities and projects benefit the community, assist low and moderate income persons, and comply with federal regulations, certain responsibilities are required of recipients of CDBG assistance.

1. The recipient must agree to comply with all applicable federal, state, and local laws and regulations applicable to the project.
2. Recipients are required to enter into a contract as a subrecipient with the City of Wichita Falls that governs the organization's responsibilities and obligations, performance and reporting requirements, and recordkeeping with regard to financial standards and program beneficiaries.
3. In undertaking the project or activity, the recipient shall ensure that no person shall be denied benefits of the program or activity because of age, sex, race, religion, national origin, familial status, or handicapped status.
4. For projects that require the hiring of a contractor to complete the work, the organization must execute a written contract with the tradesman or company involved that specifies the work to be performed, timeframe for completion, details the cost breakdown, and that contains language which requires the contractor to abide by federal Davis-Bacon wage regulations for any construction-related project in which the cost exceeds \$2,000.
5. Upon completion of the project, the recipient organization must provide an accomplishment report that includes a brief narrative of how the project improved the organization or the people served, the number of unduplicated persons assisted by the organization's program, their race and ethnicity, and with certain types of projects, the household income of the family.

Note: Following approval for funding, the recipient organization must not enter into any contract or begin work on a project until a contract between the City of Wichita Falls and your organization is executed and authorization to begin the project is granted.
