**For Immediate Release**

**March 11, 2024**

## **Parks and Recreation Master Plan Kick-Off**

Wichita Falls, Texas - The City of Wichita Falls is excited to announce the project kick-off for the Parks and Recreation Master Plan.

### **Why Is This Important?**

The Parks and Recreation Master Plan serves as our roadmap for enhancing and maintaining our community's park spaces, amenities, and recreational facilities. The Master Plan will guide decisions on park development, programming, and improvements.

### **How Can the Public Get Involved?**

The public's input is vital to the process. There will be multiple engagement opportunities available throughout the planning process. We want to hear from the public what they are looking for in our parks system. To stay involved and up to date on where we are in the process and upcoming engagement activities, please visit the master plan website:

[Wichita Falls Parks & Recreation Master Plan](#)

Details regarding the first public meeting will be released soon. We look forward to the public's involvement in shaping the future of parks and recreation in Wichita Falls!
